

FF100/ FF150 PANEL

PRODUCT SPECIFICATIONS

FF100 / FF150 PANEL

The FF100 delivers 16" coverage with a 1" rib height, while the FF150 offers 15" coverage with a taller 1.5" rib height — giving you the flexibility to match panel profile to your project's aesthetic and structural requirements. Both panels feature a snaplock overlap design with a fastener flange system and fully hidden fasteners, eliminating exposed hardware for a sleek, uninterrupted roofline that stands up to the elements.

PANEL SPECIFICATIONS

Gauges:

26ga — .0185 panel thickness

Coatings:

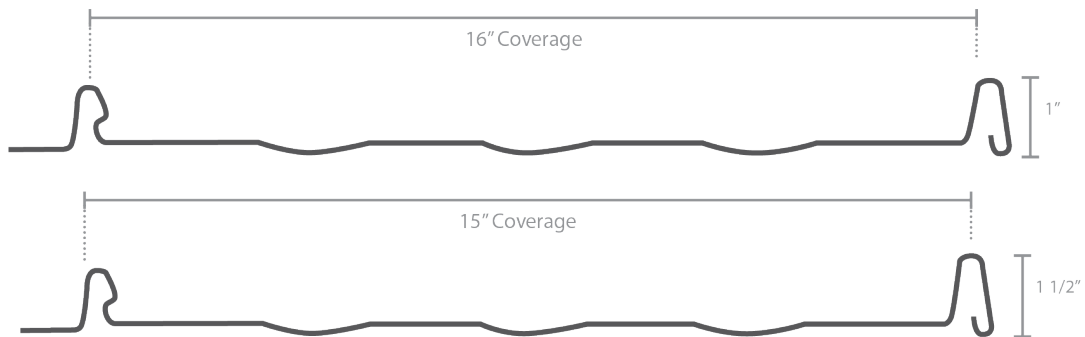

- Weather XL 40-Year Paint Finish
- Weather XL Crinkle 40-Year Paint Finish

Available Substrates:

AZ50 Galvalume

WARRANTY COVERAGE

Our warrants that the color-coated finish applied to its steel roofing and siding panels will not, within a period of forty years after installation or forty years and one month after the date of shipment (whichever comes first), crack, check, peel or lose adhesion.
