

SS200 PANEL

PRODUCT SPECIFICATIONS

SS200 PANEL

One of the most durable, weatherproof roofing systems available. This type of panel has a sleek and modern look as well as a weather-tight material. CMS panels give you a beautiful roof without a single screw showing. Extra protection from leaks is one of the many benefits of our Standing Seam panel. Our panels are designed to withstand the most rigorous weather conditions and are available in a 16-inch maximum width.

PANEL SPECIFICATIONS

Gauges:

- 26ga – .0185 panel thickness
- 24ga – .0239 panel thickness

Coatings:

- Weather XL 40-Year Paint Finish
- Weather XL Crinkle 40-Year Paint Finish

Available Substrates:

- AZ50 Galvalume

WARRANTY COVERAGE

Our warrants that the color-coated finish applied to its steel roofing and siding panels will not, within a period of forty years after installation or forty years and one month after the date of shipment (whichever comes first), crack, check, peel or lose adhesion.
